

Foundation-1

Free solar panels, free installation, free maintenance, free insurance.

www.foundation-1.co.za

Generocity

Foundation-1's zero-capex solar solution that lets businesses generate solar power without paying for panels, installation, maintenance, or insurance.

Generocity is supported through Nedbank financing structures, giving businesses confidence that this solution is built on credible commercial backing.

At its core, Foundation-1 exists to make it easier for businesses to cut electricity costs without being blocked by large upfront payments.

Lumen

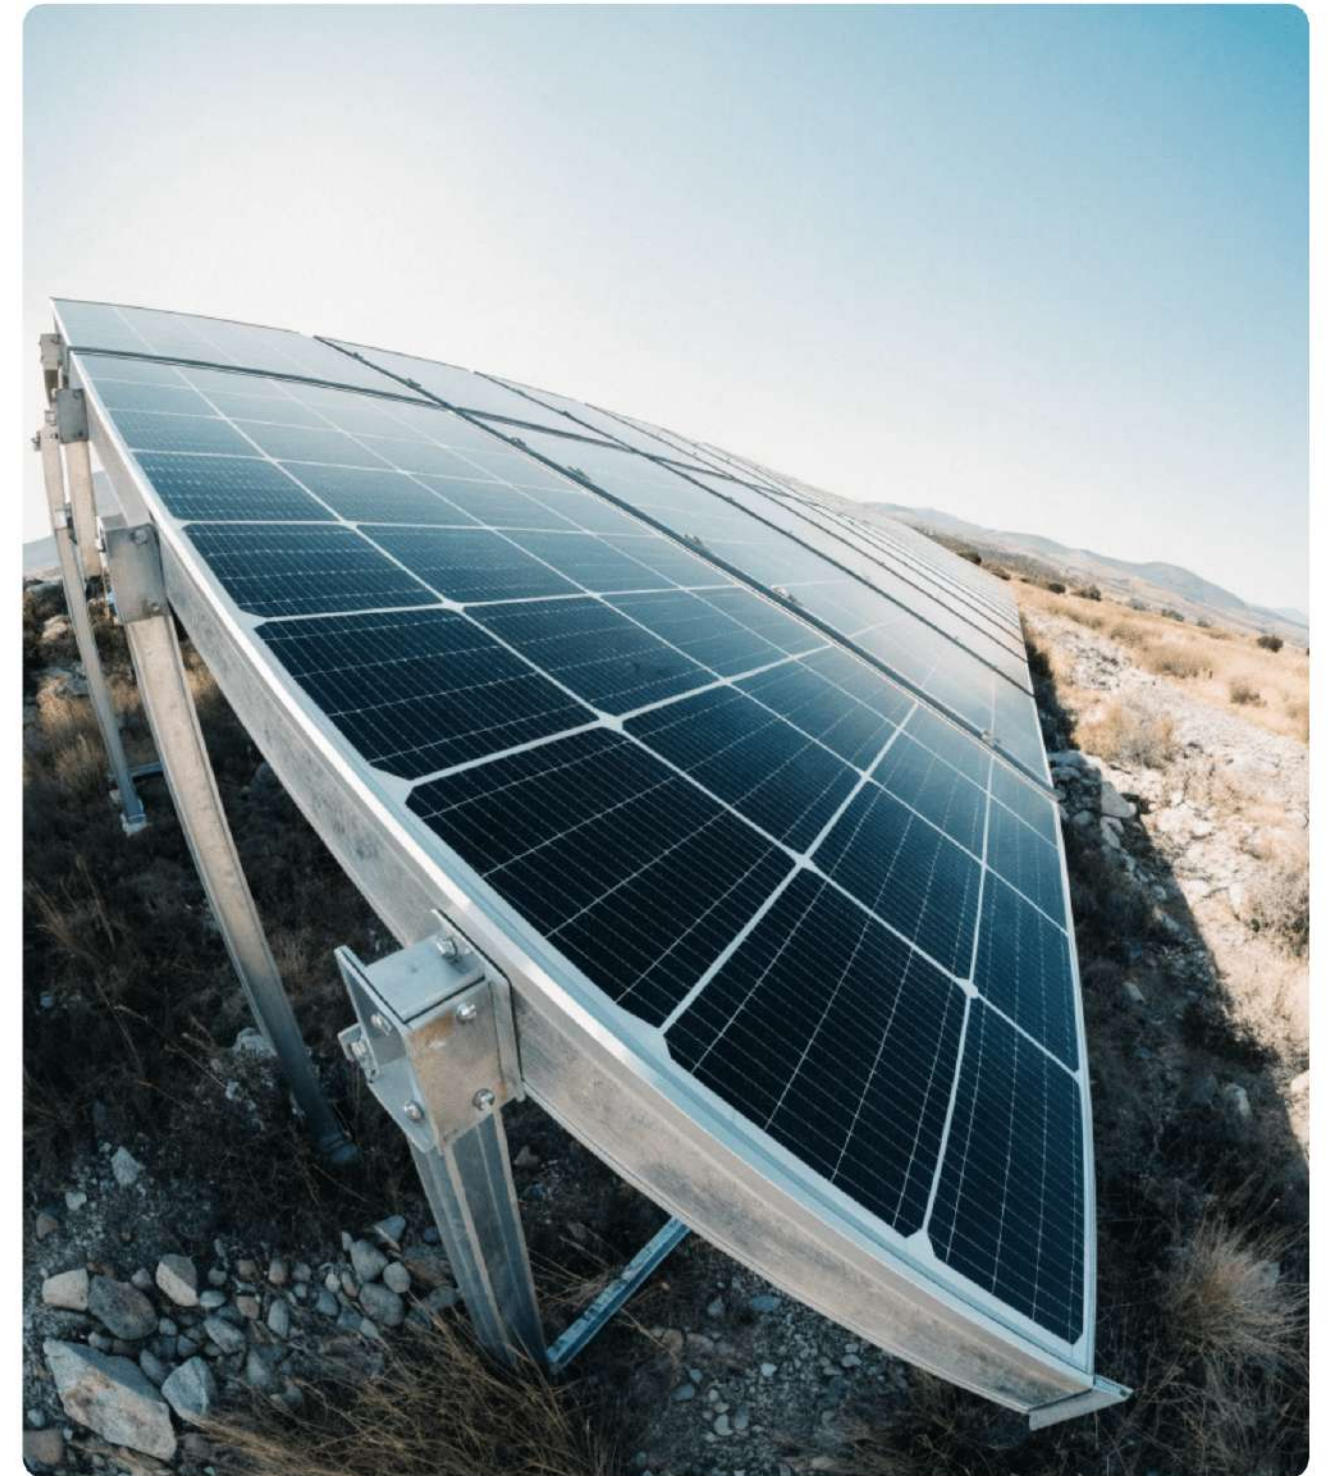

A zero-capex renewable electricity solution for larger businesses that want access to cleaner power without funding energy infrastructure themselves.

Lumen is backed by Green Share Virtual Power Plant infrastructure, including access to a 56 Megawatt solar farm.

Both solutions share one goal: lower bills, no upfront costs, and real commercial support behind every commitment.

Get 35% - 50% savings on monthly energy spend.

Foundation-1 Company Profile

Who we are

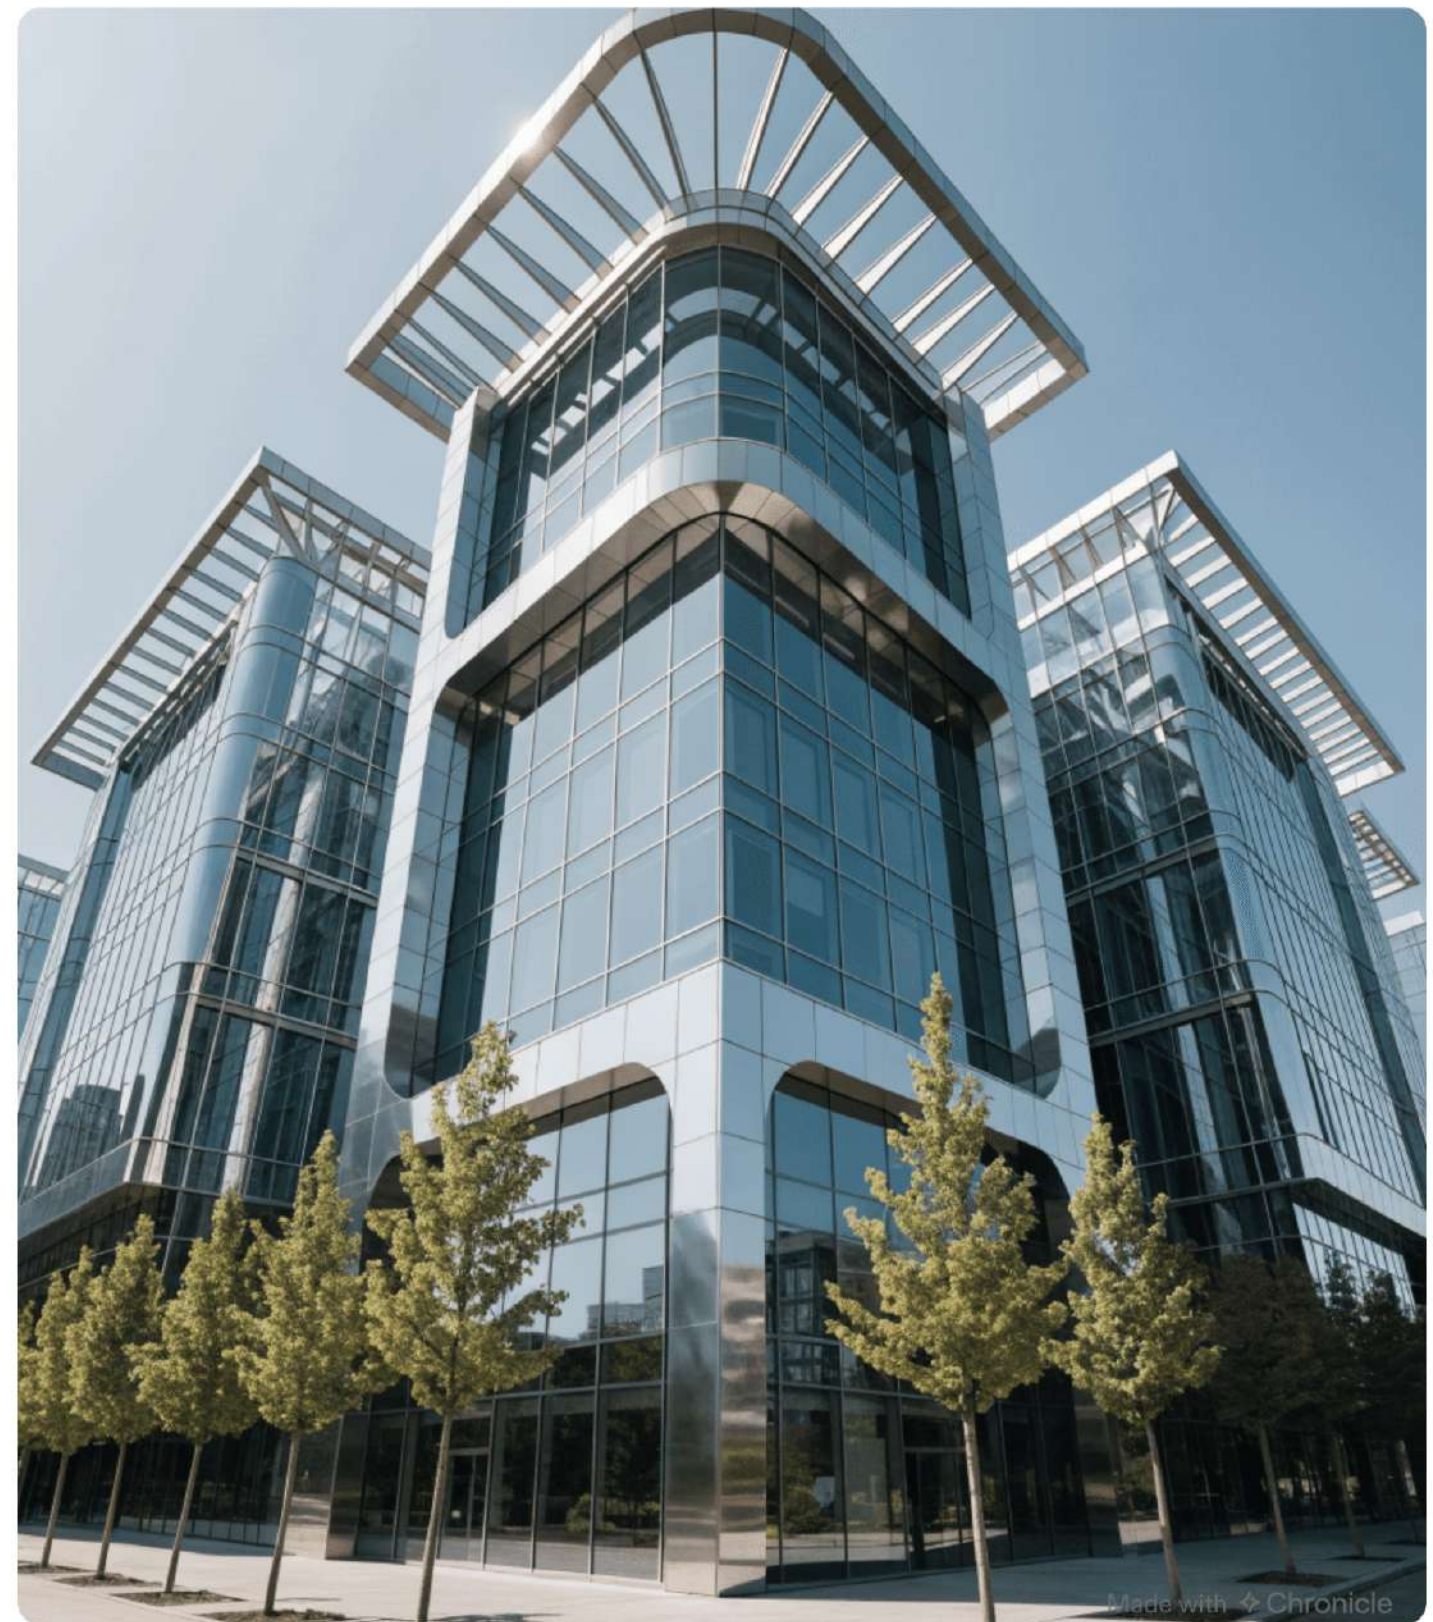

Simpler energy decisions for every business

Foundation-1 is an energy company helping businesses migrate to better electricity solutions that are simple, practical, and affordable.

Most businesses know they need relief from rising electricity costs. But the upfront cost is too high, the process is confusing, and the market is hard to trust.

We remove those barriers. Businesses get access to energy solutions with no upfront capital. We guide every client from first contact through qualification, paperwork, proposals, and implementation readiness.

We make the switch easier to understand and easier to act on.

What we offer.

Foundation-1 Company Profile

Made with  Chronicle

Generocity

Generocity: Zero-Capex solar for your business

Lower your electricity bill without paying upfront. Generocity gives qualifying businesses the benefit of solar, with none of the financial burden.

Free solar panels

High-performance panels installed at no cost to your business.

Free installation

Professional setup handled end-to-end. No project management or coordination needed on your side.

Free maintenance

Ongoing system upkeep is fully covered. Your panels stay optimised without lifting a finger.

Free insurance

Full coverage included from day one. Your solar investment is protected at zero extra cost.

Lumen

Lumen: Zero-capex renewable electricity

Renewable electricity backed by Green Share Virtual Power Plant infrastructure, including a 56 MW solar farm. Move to cleaner power without paying large upfront costs.

High-volume users

Designed for businesses that consume larger amounts of electricity and need a broader supply solution.

Cheaper, cleaner power

Access renewable electricity at lower cost, backed by energy capacity from solar farm infrastructure.

Long-term solution

Built for businesses that need a stable, sustainable energy partnership.

Zero infrastructure costs

No upfront capital expenditure required. Qualifying businesses get started with no investment in physical assets.

Cheaper, cleaner electricity for your business.

Commercially structured solutions so you save from day one.

Energy costs are rising. Capital shouldn't be the barrier.

Electricity has become one of the biggest pressure points for South African businesses. Costs keep rising. Supply remains unstable. Many businesses need an alternative but cannot take cash out of the business to fund it.

The move to better energy should not be limited to businesses with spare capital. Ordinary businesses deserve access to serious energy solutions. Foundation-1 was built to remove the cost barrier entirely.

Why businesses choose us

Six reasons that make the decision easy.

Zero upfront cost

Start generating savings from day one with no capital investment required

Lower electricity bills

Reduce your energy spend immediately through competitive renewable tariffs

Cleaner energy

Access renewable electricity without the complexity of managing your own installation

Simple products

Two clear options designed for business owners, not energy specialists

Guided onboarding

We walk you through every step from assessment to activation

Credible backing

Supported by established financial and energy partners you can trust

Credibility from the outset. Real funding, real infrastructure, real confidence.

Generocity: Nedbank-backed

- Zero-Capex solar backed by Nedbank financing
- Stronger commercial credibility from day one
- Businesses trust the solution because the funding is proven

Lumen: Infrastructure-backed

- Powered by Green Share Virtual Power Plant
- Access to a 56 MW solar farm for real capacity
- Large energy transactions supported by infrastructure from the start

01	Engage the business	We connect with you to understand your energy needs and goals.
02	Review qualification	We assess whether your business meets the criteria for our programmes.
03	Collect information	We gather your electricity data and supporting documents to build a clear picture.
04	Match to solution	We pair your business with the right product: Generocity for solar or Lumen for wheeled solar electricity.
05	Proposals and terms	We guide you through proposals, pricing and commercial agreements.
06	Prepare to implement	We get everything ready so your transition to clean energy is seamless.

Who we serve

Businesses that:

- Are registered and operating
- Spend +R10k on electricity every month
- Want to lower their electricity costs
- Want cleaner energy
- Do not want upfront and maintenance costs
- Want a credible, structured solution

Our mission and vision for a cleaner energy future.

Mission

- Zero-Capex energy solutions with no upfront and maintenance cost
- Help businesses migrate to cheaper, cleaner electricity
- Remove financial barriers to renewable adoption

Vision

- Become Africa's trusted energy transition platform
- Scale across Africa as the continent electrifies
- Power every business with affordable renewables

What makes Foundation-1 different

Clarity is our edge. Every business owner understands exactly what we offer from the first conversation.

Traditional solar

The old way

- ✗ High upfront costs
- ✗ Complex, unclear process
- ✓ Reduces electricity bills
- ✗ Limited institutional backing

Foundation-1

Built on clarity

- ✓ Zero-Capex, no upfront costs
- ✓ Free solar panels
- ✓ Free installation
- ✓ Free maintenance
- ✓ Free insurance
- ✓ Lower electricity bills
- ✓ Credible institutional backing
- ✓ Structured, guided process
- ✓ Clear from the first page

Other green options

The unclear way

- ✗ Upfront costs - most times
- ✗ Confusing terms and offers
- ✗ Unstructured onboarding
- ✗ Weak credibility signals

Get started

Cheaper, cleaner electricity starts here.

1

Generocity

Zero-Capex solar for your business, backed by Nedbank financing

2

Lumen

Zero-Capex renewable electricity from a 56 MW solar farm

3

Lower your bills

No upfront cost, no infrastructure burden. Just savings from day one.
